

Aktieliste pr. 31-01-2019

Velliv arbejder aktivt med ansvarlige investeringer, og vi tror på at aktivt ejerskab via dialog og samarbejde med de virksomheder, vi investerer i, er den bedste måde at påvirke og ændre virksomhedernes adfærd. Såfremt denne dialog ikke leder til positive ændringer, så vil vi ultimativt sælge investeringerne i pågældende virksomhed og sætte selskabet på vores eksklusionsliste.

Derudover omfatter vores eksklusionsliste typer af virksomheder, der fremstiller biologiske og kemiske våben, landminer, klynge- og atombomber.

For at sikre den rette risikospredning i vores porteføljer investerer vi både direkte i aktier, og via fonde i fællesskab med andre investorer. Når vi investerer via en fond, så fastlægges fondens ansvarlighedspolitik af kapitalforvalteren bag fonden. Vi sikrer os altid, at de kapitalforvaltere som vi samarbejder med har en redelig og grundig politik for ansvarlige investeringer
