

Vellivs eksklusionsliste

Opdateret: 12-10-2023

Eksklusionskriterierne gælder for Vellivs portefølje af børsnoterede aktier og virksomhedsobligationer, som Velliv har på eget depot. Velliv kan ikke kræve efterlevelse af eksklusionslisten, når det gælder eksterne fonde, hvor Velliv ikke har bestemmende indflydelse. For øvrige aktivklasser implementeres den i det omfang, det er muligt.

Der henvises til Vellivs Politik for ansvarlige investeringer og aktivt ejerskab for yderligere information.

Kontroversielle våben - Omfatter selskaber, der er involveret i produktion af kontroversielle våben, herunder personelminer, klyngeammunition, kemiske våben, biologiske våben og atomvåben

Fossilt - Omfatter selskaber, hvor mere end 5 pct. af omsætningen stammer fra udvinding af termisk kul, oliesand, fracking og/eller arktisk boring, og selskaber der har planer om termisk kulekspansion indenfor udvinding eller energi. Omfatter også selskaber hvor mere end 5 pct. af omsætningen stammer fra udvinding og produktion af olie og gas, og anvendelse af termisk kul, olie og gas i energiproduktion, medmindre Velliv vurderer, at selskaberne har ambitioner og handler målrettet efter Parisaftalen.

Tobak - Omfatter selskaber, hvor mere end 5 pct. af omsætningen stammer fra produktion af tobak.

Virkningsløs dialog - Omfatter selskaber, hvor der er identificeret brud med Vellivs principper for ansvarlige investeringer, herunder FN's Global Compact, og hvor dialog har været virkningsløs.

Rusland – Omfatter selskaber, hvor staten ejer aktiemajoriteten.
